### **SECTION 1: INSTRUCTIONS** (Keep page 1 and submit page 2)

All federal and other state's credentials must be in good standing before KYU inventory updates will be processed.

Kentucky law requires each vehicle with a combined licensed weight of 59,999 pounds or greater to be listed with your Kentucky Highway Use Tax License Number (KYU). Our new KYU Online system will allow you to update KYU VIN data in real time. Visit <a href="http://drive.ky.gov">http://drive.ky.gov</a> to apply for a KYU, update your inventory, and file taxes.

Please allow up to 14 business days to process KYU inventory updates when using this document. Motor Carriers will only add 20 vehicles. Fax completed document to 502-564-4138. If you have more than 20 updates you must take advantage of our bulk upload feature in the Kentucky Motor Carrier Portal.

<sup>2</sup> **COMBINED LICENSED WEIGHT** - "Combined Licensed Weight" means the greater of the registered weight of the vehicle or the maximum gross weight of the vehicle and load. All carriers, regardless of state of registration, shall declare a gross weight on the vehicle inventory equal to the total weight of the vehicle and any towed unit, plus the maximum load it will carry on the public highways within the Commonwealth of Kentucky. The weight declared may be less than the registered maximum weight of your base jurisdiction.
