National Ambient Air Quality Standards (NAAQS), Particulate Matter (PM), Partial (P)						
1. (*) indicates entire counties eligible for CMAQ. (**) indicates partial counties eligible for CMAQ						
2. EPA revoked the requirements for the 1997 Ozone NAAQS; including Transportation Conformity. Effective April 6, 2015.						
3. Transportation Conformity requirements are still required for the 2008 Ozone NAAQS.						
4. EPA issued a final rule establishing the 2015 Ozone NAAQS at 70ppb. Effective Oct. 1, 2015. On November 6, 2017, EPA issued Round 1 of designations, which included only attainment counties. Further vetting of data must be done on counties that remain to be released in Round 2 at a later date.						
5. EPA changed the initial designations of the 2012 PM2.5 NAAQS. Effective April 15, 2015.						
6. EPA revoked the requirements for the 1997 PM2.5 NAAQS; including Transportation Conformity. Effective October 24, 2016, unless the area was nonattainment. For Louisville, the area was nonattainment until April 7, 2017. It was not until this date the Louisville area was revoked of all requirements related to the 1997 PM2.5 NAAQS.
