Get There Together

Please take a moment to tell us about you and what you think are the top transportation topics across Kentucky. We appreciate your valuable input.

Learn about the transportation planning process before you begin.

The Kentucky Long-Range Statewide Transportation Plan (LRSTP) is a planning document that identifies the goals, policies, needs and analysis tools that set the direction of Kentucky's transportation system toward 2045.

Every one of us relies on some form of transportation to connect us to our places and has a role in the planning process. The LRSTP update is an important opportunity for all Kentuckians to weigh in on the state's long-term multi-modal transportation vision and help adapt to changing needs that impact our transportation system.

Your confidential feedback will help us identify a transportation system that works for everyone. This survey should take approximately 10 minutes to complete.

We Want Your Input

As we set the course for the future of Kentucky's transportation system, we're giving everyone a voice in the planning process. The input you provide will help shape the direction of statewide transportation planning between now and 2045.

YOUR VISION OF THE FUTURE

What are the most important project outcomes to you?

Please rank 5 of the 9 below in your preferred order with 1 being your top priority.

	Improved Travel Choices - Provide a variety of options for motorists, pedestrians, transit users, and cyclists to reach their destinations.
	Improved Traffic Flow - Reduce delays in travel times by reducing congestion and traffic jams.
	Healthy Natural Environment - Provide opportunities to enhance the natural environment and to have the fewest impacts on our air, water, and wildlife habitats.
	Improved Quality of Life - Provide opportunities to enhance our neighborhoods and communities. When possible, minimize impacts on historic properties, archaeological sites, and cultural/recreational resources.
	Increased Safety - Reduce the number of crashes for all users.
	Economic Opportunities & Jobs - Provide transportation improvements that can support existing and future employment and economic activity.
	Alternative Fuels Infrastructure - Provide infrastructure necessary for alternative energy sources and for the reduction of fuel consumption.
	Well-maintained Roads/Bridges - A network of roads and bridges that are in good condition.
