JUL 19 REC'D

Dear Ms. Bullock:

I am writing this letter in support of the proposed reconstruction of KY 30 between Jackson and Owsley Counties.

The road would be a great convenience to the people of our community as well as people across the region who travel that route. Many residents of Owsley County work and do business in Jackson County. This highway would be a safe route to travel for those people.

As Mayor of the City of Booneville I have attended several meetings concerning the 6 year road plan. We have always voted to keep this project in that plan. We believe that the development of the proposed roadway would increase the number of people traveling through our area.

Again, we are in strong support of this much needed construction.

Sincerely,

A handwritten signature in cursive script that reads "Charles E. Long".

Charles E. Long, Mayor

AUG 6 REC'D

Dear Ms. Bullock:

This letter is in reply to your request of July 13, 2001, for comment on a study of the potential consequences resulting from the reconstruction of KY 30 between Jackson and Owsley Counties. The Kentucky State HUD Office is pleased to have the opportunity to respond.

Based on the materials and information you provided, the proposed project does not impact any HUD programs in Jackson or Owsley County. Also, we are unaware of any issues, problems, or environmental justice impacts within the project area.

Thank you for allowing us to review your project in its preliminary stages. If you have any questions, please contact Community Builder Robin Penick at 582-6163, ext. 215.

Sincerely,

John Milchick, Jr.
Kentucky State Coordinator
