

What is your opinion about extending KY 645 from US 23 to Interstate 64?

The Kentucky Transportation Cabinet (KYTC) is sponsoring a regional corridor study for a new highway route that would extend KY 645 from US 23 to some location along Interstate 64 between Morehead and the Industrial Parkway. Portions of this new highway may pass through Lawrence, Elliott, Rowan and/or Carter Counties. As part of this planning study, public input is needed to help better understand transportation needs in the area, where problems might exist, where this route should go and where it should connect to Interstate 64.

The KYTC would appreciate your comments and ideas. Please return this form to the Citizens' Advisory Group Member, or request a self-addressed envelope to return the questionnaire by mail. Questionnaires should be submitted by May 9, 2003.
