RE: Cultural Historic Overview Survey
for Mayfield and the Surrounding Area,
Graves County, Kentucky
CRA Project No.: K20Q009
Contract Publication Series: 20-426

Dear Ms. Thompson,

In November and December 2020, Cultural Resource Analysts, Inc. (CRA), personnel completed a cultural historic overview survey for Mayfield and the surrounding area in Graves County, Kentucky. The study was conducted at the request of Rebecca Thompson of Qk4, Inc., on behalf of the Kentucky Transportation Cabinet (KYTC). The study area was provided by Qk4, Inc., and consists of the city of Mayfield and adjacent areas to the north, east, south, and west within Graves County (Figures 1 and 2). The objective of the overview study is to identify properties along study routes that are potentially significant, or are listed or eligible for listing in the National Register of Historic Places (NRHP) that should be taken into consideration as future improvements are considered. Study routes are defined as state-maintained highways within the study area (excluding I-69) plus portions of a few high-volume local routes representing an important part of the city's street network: S Tenth Street, Willow Drive, Macedonia Street, and Farthing Street. This letter report was prepared by Lauren Poole, MHP, of CRA.

CRA personnel completed a records review at the Kentucky Heritage Council (KHC) on September 18, 2020. Geographic information systems (GIS) data provided by the KHC (FY21-4089) identified 391 previously surveyed resources and an NRHP-listed historic district, the Mayfield Downtown Commercial Historic District, within the study area. According to the records review results, one survey number, GV 182, has been retired, leaving 390 previously surveyed resources in the study area. Upon closer examination of property boundaries in the vicinity of the study area, it was determined that only 385 of the 390 individual resources identified by the KHC GIS data are located in or adjacent to the study area or have property boundaries extending into the study area.

The Mayfield Downtown Commercial Historic District was listed in the NRHP in 1984. The nomination was completed by Richard Holland of Paducah-McCracken County Growth, Inc. The district was listed under Criterion A for its historic and continuing role as the governmental, commercial, and industrial center of Graves County. The district was also listed under Criterion C for the significance of its downtown architecture. At the time of the nomination, the historic district consisted of nine blocks in downtown Mayfield containing approximately 62 contributing structures (GVM 7-68), 1 non-contributing resource, and 8 non-historic intrusions. All of the contributing resources in the Mayfield Downtown Commercial Historic District generally dated from the mid-nineteenth to the early twentieth century. The period of significance extended from 1875 to 1934. The district encompasses the majority of the downtown area and was roughly bound by North Street to the north, Sixth and Fifth Streets to the east, Water and Broadway Streets to the south, and Eighth and Ninth Streets to the west (Holland 1983).

In 1996, the historic district's boundaries were expanded to include additional commercial and residential buildings along North, Broadway, South, Water, Sixth, Seventh, Eighth, Ninth, and Tenth Streets, including 26 contributing structures and 5 non-contributing resources. The expansion nomination also indicates that of the original 62 contributing resources included in the historic district only 49 remain. The expanded district encompassed approximately 45.38 acres in downtown Mayfield. The 1996 nomination also extended the period of significance from 1860 to 1945 (Logsdon 1995). According to the KHC database, as of today, the Mayfield Downtown Commercial Historic District contains a total of 93 resources, including 53 contributing resources (GVM 7–12, GVM 14–22, GVM 24–26, GVM 28–34, GVM 36–40, GVM 42–44, GVM 46, GVM 48–50, GVM 52–54, and GVM 56–68) and 6 non-contributing resources (GVM 13, GVM 23, GVM 27, GVM 35, GVM 41, and GVM 51). Thirty-one district resources (GVM 45, GVM 47, GVM 55, GVM 78, GVM 86–88, GVM 90, GVM 110–112, GVM 156–158, GVM 160, GVM 162–166, GVM 171–176, GVM 178–179, GVM 196, GVM 216, and GVM 374), many of which were included in the expanded boundary area, have an undetermined status in the KHC database. Two resources are individually listed in the NRHP, the Mayfield Post Office (GVM 2) and the Confederate memorial (GVM 69) located near the Graves County Courthouse (GVM 3), but also contribute to the Mayfield Downtown Commercial Historic District's significance. The Graves County Courthouse (GVM 3), which was included in the historic district as part of the boundary expansion, was also determined individually eligible for listing in the NRHP.

Four individually NRHP-listed properties are located in the study area. The Wooldridge Monuments (GVM 1) in the Maplewood Cemetery are individually listed in the NRHP under Criterion C as excellent examples of late nineteenth-century cemetery sculpture that represent the work of a local master craftsman. The NRHP boundary for the resource consists of a 33 ft by 17 ft cemetery plot in the Maplewood Cemetery (Wells 1980). The Mayfield Post Office (GVM 2) was listed in the NRHP under Criterion C in 1982 as an important example of the Classical Revival style. The NRHP boundary for the resource consists of the entirety of an approximate 130 ft by 150 ft lot located at the corner of Broadway and Ninth Streets (Pulley 1982). The Confederate memorial outside the Graves County Courthouse (GVM 69) and the Confederate Memorial Gates (GVM 70) at Maplewood Cemetery were listed in the NRHP as commemorative properties under Criteria Consideration F for their significance within the thematic context of the "Civil War Monuments in Kentucky, 1861–1935" (Brent 1997a; Brent 1997b). The NRHP boundary for GVM 69 consists of a circle centered on the monument with a 20 ft radius, and the NRHP boundary for GVM 70 forms a buffer of 10 ft centered on the resource, which consists of two sets of gates and a set of gateposts, and includes the approximately 600 ft between the two gates (Brent 1997a, 1997b). Two resources located in the study area, the Graves County Courthouse (GVM 3) and the J.L. Sherrill Tobacco Warehouse (GVM 376), have been determined to be eligible for listing in the NRHP. The Graves County Courthouse (GVM 3) is also a contributing structure in the Mayfield Downtown Commercial Historic District (Logsdon 1995). According to the associated survey form, the J.L. Sherrill Tobacco Warehouse was also determined to be eligible for listing in the NRHP as a contributing resource to a potential tobacco district in Mayfield (Smith 2019). One resource in the study area, GV 51, is listed in the KHC database as demolished. All of the remaining resources in or adjacent to the study area (GV 7, GV 13, GV 30, GV 35–37, GV 39, GV 41–50, GV 52–58, GV 199, GVM 4–5, GVM 71–77, GVM 79–85, GVM 89, GVM 91–109, GVM 113–115, GVM 117–118, GVM 120–131, GVM 134–155, GVM 159, GVM 167, GVM 170, GVM 177, GVM 180–195, GVM 197–206, GVM 210–215, GVM 217–355, GVM 357–364, GVM 366–367, and GVM 371–373) have an undetermined status in the KHC database. The field survey revealed resources GV 7, GV 13, GV 39, GV 51–52, GV 55–58, GVM 72, GVM 83–85, GVM 91–92, GVM 95, GVM 102, GVM 113–115, GVM 135–136, GVM 150, GVM 155, GVM 185, GVM 187–188, GVM 191–193, GVM 195, GVM 205, GVM 210, GVM 212–213, GVM 217, GVM 220, GVM 225, GVM 230–231, GVM 257, GVM 269, GVM 355, and GVM 362–364 to be no longer extant.

A review of surveys and reports on file at the KHC revealed six previously completed cultural historic reports with areas of potential effects (APEs) and/or survey areas that overlap the current study area. The survey reports were completed between 1989 and 2010 and are summarized in Table 1 (Barrett 2003; Logsdon 1994; McCarley 2002; Powell 1989; Preservation Services and Technology Group, LLC 2010; Rapier and Rogers 2004). The previous reports did not identify any additional resources that were not already included in the KHC's GIS database.

The study area for the planning study for Mayfield and surrounding areas was subject to a windshield survey. Lauren Poole and Tim Condo of CRA and Alyssa Reynolds and John Dickerson of CRA completed the windshield survey on November 16–17, 2020, and December 1, 2020, respectively. The scope of the windshield survey was limited to study routes, including United States highways, state routes, and major city streets in downtown Mayfield as directed by staff of Qk4, Inc. (Figures 1–12). Only those previously surveyed resources along these roadways and those determined to exhibit potential significance for listing in the NRHP were recorded during the windshield survey. The evaluation of previously surveyed resources not located on these primary roadways, such as GV 30, GV 35–37, and GV 46–50 located on Central and Old Dukedom Road, was outside the scope of the windshield survey, as these resources were not located along transportation corridors indicated by Qk4, Inc., to be included in the current study. As such, they were not assessed for NRHP eligibility. The field survey identified 385 previously surveyed resources (Tables 2–3, and 5) and 6 previously undocumented properties (CRA 1–6). All surveyed resources are included in the accompanying shapfiles. Existing and potential historic district boundaries, properties listed in or previously determined eligible for listing in the NRHP, and potentially significant resources are mapped on topographic quadrangles and aerial photographs (see Figures 1 and 2).

Individual resources, existing historic districts, and potential historic districts were assessed along the study routes included in the windshield survey. Of the 391 resources identified during the windshield survey within the study area, four (GVM 1, GVM 2, GVM 69 and GVM 70) are listed in the NRHP and two (GVM 3 and GVM 376) were previously determined eligible for listing in the NRHP (see Table 2). GVM 376 was also previously determined eligible as a contributing resource to a potentially NRHP-eligible tobacco warehouse historic district. Eighty-nine of the resources included in the windshield survey are located in the NRHP-listed Mayfield Downtown Commercial Historic District. Of these resources, 23 are currently listed as contributing resources, 2 are non-contributing resources, and 16 have an undetermined NRHP status. Two of the contributing resources (GVM 2 and GVM 69) are listed in the NRHP and one resource (GVM 3) was previously determined eligible for listing in the NRHP. During the windshield survey, 52 previously surveyed resources (GVM 9–10, GVM 16–42, GVM 50, GVM 55, GVM 60, GVM 63–68, GVM 90, GVM 110–112, GVM 157, GVM 164–166, GVM 173–176, GVM 196, and GVM 216) in the Mayfield Downtown Commercial Historic District were found to be non-extant. The loss of these structures, as well as the construction of modern infill, affects the overall integrity of the historic district and, as such, the current NRHP boundary for the Mayfield Downtown Commercial Historic District is no longer appropriate. It is recommended that the boundary be adjusted to accommodate the current structures and sites; however, as a complete survey for the Mayfield Downtown Commercial Historic District was outside the scope of the windshield survey, additional investigations would be necessary to determine the exact limits of the revised boundary.

Table 1. Previous Survey Reports.

Report Title	Report Author and Associated Company	Prepared For	Report Date	Associated Surveyed Resources in Study Area
Historic Architectural Survey for the Mayfield Eastern Bypass (KY 121) Project, Graves County, Kentucky	Helen C. Powell, H. Powell and Company, Inc.	KYTC	April 1989	Multiple; APE includes numerous historic resources in Mayfield portion of the study area
City of Mayfield Historic Resources Survey and Historic Preservation Component: Final Survey Summary Report	Donna G. Logsdon, Logsdon & Logsdon Architects	The City of Mayfield and KHC	September 30, 1994	Multiple; surveyed area includes numerous historic resources in Mayfield portion of the study area
A Cultural Historic Survey of the Proposed South Highland Tower Site, South of Mayfield, Graves County, Kentucky	Rebecca Lawin McCarley, CRA	GPD Associates	December 6, 2002	GV 30–37
Architectural and Historical Assessment for the Proposed Mayfield-Murray Transmission Line Relocation, Graves County, Kentucky	Jared Barrett, TRC, Inc.	Tennessee Valley Authority	September 2003	GV 39–40
Cultural Historic Survey for the Proposed Construction of KY 80 from the US 45 Bypass to the KY 121 Truck Route South of Mayfield, Graves County, Kentucky (1-181.40 and 1-181.50)	Rebecca G. Rapier and Bethany Rogers, CRA	KYTC	January 8, 2004	GV 41–58
A Cultural Historic Resource Evaluation for the Proposed Construction of a Radio Communications Tower at Mayfield, Graves County, Kentucky.	Preservation Services and Technology Group, LLC	Terracon Consultants, Inc.	December 2010	GV 41–50

Seven previously surveyed resources (GV 199, GVM 5, GVM 56, GVM 57, GVM 71, GVM 172, and GVM 178) and six new historic resources (CRA 1–6) were identified in the field as potentially significant properties with the potential for eligibility for listing in the NRHP (Table 4). Four of these resources (GVM 56, GVM 57, GVM 172, and GVM 178) are located within the current boundaries of the Mayfield Downtown Commercial Historic District. GV 199, the Hickory School, is a restored Rosenwald school which was moved from its historic location in Hickory to the grounds of Graves County High School. These sites require additional research to formally evaluate their eligibility for listing in the NRHP, but they appear to be potentially significant under Criterion A and/or C. Archival research and a closer examination of significance and integrity are necessary to make comprehensive recommendations of eligibility.

In addition to evaluating individual resources, CRA also considered the potential for additional historic districts in the study area. Based on the windshield survey, the portion of the study area in Mayfield proper roughly bound by Backusburg Road (KY 464) to the north, Usher and Brand Streets to the east, Paris Road (KY 121) to the west, and College and Douthitt Streets to the south holds potential significance as a residential historic district (see Table 4). The resources in this portion of the study area primarily consist of single family residences dating to the late nineteenth and early twentieth centuries. Queen Anne, Colonial Revival, Craftsman, and Tudor Revival style residences, as well as T-plans, Bungalows, and Foursquare dwellings, are commonly found throughout this residential area. Structures are generally set back from the street on small, tree-lined lots. Based on the windshield survey, the majority of resources in the area, including both previously surveyed (GVM 73–77, GVM 232–256, GVM 258–338, GVM 340–354, GVM 357–361, GVM 366–367, and GVM 371–373) and previously unrecorded resources, would contribute to the significance of the potentially NRHP-eligible historic district. Additionally, some resources in this portion of the study area may also be individually significant; however, further research and investigations are necessary to determine the individual significance and integrity of these resources. Additional research and analysis are necessary to determine if the area retains sufficient integrity and rises to a level of significance as to be eligible for listing in the NRHP as a residential historic district.

In northeast Mayfield, the area generally bound by Gardner Street to the north, the railroad to the east, North Thirteenth and Fourteenth Streets to the west, and Depot and West Broadway Streets to the south holds potential significance as a tobacco warehouse historic district (see Table 4). In 2019, the J.L. Sherrill Tobacco Warehouse (GVM 376) was determined individually eligible for listing in the NRHP and eligible for listing as a contributing resource to a potential tobacco warehouse historic district. The building is reportedly the last extant brick tobacco warehouse in Mayfield, and the surrounding area is colloquially known as the “Tobacco District” (Smith 2019). Although a few warehouses have been demolished and non-historic warehouses have been constructed, based on the windshield survey and a review of recent aerial photographs, the area appears to retain the highest concentration of extant tobacco warehouses in Mayfield. The historic warehouses in the vicinity of GVM 376 generally date to the early to mid-twentieth century and are constructed of concrete block and/or are clad in metal siding. Several of the warehouses feature arched roof forms. Both Dunbar and Depot Streets retain their historic brick pavers and, despite some additions, the majority of the warehouses in the area would contribute to the significance of the potential historic district. Based on the results of the windshield survey, this section of the study area appears to retain several intact tobacco warehouses as well as notable streetscape features and has potential to be an NRHP-eligible historic district. However, a complete assessment of the integrity of individual structures, as well as the area as a whole, was outside the scope of the windshield survey. Therefore, further research and field investigations are necessary to determine if the area retains sufficient integrity and significance to be eligible for listing in the NRHP as a historic district.

Table 4. Potentially Significant Resources and Potential Historic District Resources.

Site/Survey #	Resource Name/Function	Address/Location	NRHP Status	Condition	Figures
CRA 1	Log residence	111 Chapman Road	Potentially significant	Fair; retains historic materials and form; integrity compromised by deteriorated condition	31–33
CRA 2	Hickory Post Office	1976 KY 1241	Potentially significant	Good; retains integrity and historic form and materials	34
CRA 3	TVA Power Building	301 East Broadway Street	Potentially significant	Good; retains historic materials and form; replacement windows slightly diminish integrity	35–36
CRA 4	Log residence	KY 131	Potentially significant	Good; retains historic materials and form; replacement chimney and chinking slightly diminish integrity	37–38
CRA 5	Residence	1114 West Broadway Street	Potentially significant	Good; retains integrity and historic form and materials	39–40
CRA 6	Residence	West Farthing Street	Potentially significant	Good; retains integrity and historic form and materials	41–42
GV 199	Hickory School	Eagles Way	Potentially significant	Good; restored to historic appearance; relocation to school property somewhat diminishes integrity	43–44
GVM 5	Maplewood	614 South Seventh Street	Potentially significant	Good; retains historic materials and form; replacement windows and siding somewhat diminish integrity	45–47
GVM 56	Education building	110 South Eighth Street	Potentially individually significant; contributing to Mayfield Downtown Historic District	Good; retains integrity and historic form and materials	48–49
GVM 57	First Baptist Church	120 South Eighth Street	Potentially individually significant; contributing to Mayfield Downtown Historic District	Good; retains integrity and historic form and materials	50–52
GVM 71	Magnolia Manor	401 South Seventh Street	Potentially significant	Good; retains historic materials and form; replacement windows and doors slightly diminish integrity	53–55
GVM 73	Residence	720 Chappell Court	Contributes to a potential residential historic district	Good; retains integrity and historic form and materials with only minor alterations	See Figures 61–71 for district overviews
GVM 74	Residence	718 Chappell Court	Contributes to a potential residential historic district	Good; retains integrity and historic form and materials with only minor alterations	See Figures 61–71 for district overviews
GVM 75	Residence	620 Chappell Court	Contributes to a potential residential historic district	Good; retains integrity and historic form and materials with only minor alterations	See Figures 61–71 for district overviews
GVM 76	Residence	603 Chappell Court	Contributes to a potential residential historic district	Good; retains integrity and historic form and materials with only minor alterations	See Figures 61–71 for district overviews
GVM 77	Residence	615 Chappell Court	Contributes to a potential residential historic district	Good; retains integrity and historic form and materials with only minor alterations	See Figures 61–71 for district overviews
GVM 172	First Christian Church	115 South Ninth Street	Potentially individually significant; recommended contributing in 1996 boundary expansion; undetermined status in KHC database	Good; retains integrity and historic form and materials; non-historic addition somewhat diminishes integrity	56–58
GVM 178	Mayfield City Ice Plant	116 West North Street	Potentially individually significant; undetermined status in KHC database	Good; retains integrity and historic form and materials	59–60

Site/Survey #	Resource Name/Function	Address/Location	NRHP Status	Condition	Figures
GVM 350	Residence	320 East College Street	Contributes to a potential residential historic district	Good; retains integrity and historic form and materials with only minor alterations	See Figures 61–71 for district overviews

GVM 352	Residence	310 East College Street	Contributes to a potential residential historic district	Good; retains integrity and historic form and materials with only minor alterations	See Figures 61–71 for district overviews
GVM 353	Residence	308 East College Street	Contributes to a potential residential historic district	Good; retains integrity and historic form and materials with only minor alterations	See Figures 61–71 for district overviews
GVM 354	Residence	302 East College Street	Contributes to a potential residential historic district	Good; retains integrity and historic form and materials with only minor alterations	See Figures 61–71 for district overviews
GVM 357	Residence	325 East Jones Street	Contributes to a potential residential historic district	Good; retains integrity and historic form and materials with only minor alterations	See Figures 61–71 for district overviews
GVM 358	Residence	600 East Jones Street	Contributes to a potential residential historic district	Good; retains integrity and historic form and materials with only minor alterations	See Figures 61–71 for district overviews
GVM 359	Residence	520 East Jones Street	Contributes to a potential residential historic district	Good; retains integrity and historic form and materials with only minor alterations	See Figures 61–71 for district overviews
GVM 360	Residence	500 East Jones Street	Contributes to a potential residential historic district	Good; retains integrity and historic form and materials with only minor alterations	See Figures 61–71 for district overviews
GVM 361	Residence	414 East Jones Street	Contributes to a potential residential historic district	Good; retains integrity and historic form and materials with only minor alterations	See Figures 61–71 for district overviews
GVM 366	Residence	609 Chappell Court	Contributes to a potential residential historic district	Good; retains integrity and historic form and materials with only minor alterations	See Figures 61–71 for district overviews
GVM 367	Residence	612 Chappell Court	Contributes to a potential residential historic district	Good; retains integrity and historic form and materials with only minor alterations	See Figures 61–71 for district overviews
GVM 371	Residence	605 Usher Street	Contributes to a potential residential historic district	Good; retains integrity and historic form and materials with only minor alterations	See Figures 61–71 for district overviews
GVM 372	Residence	607 Usher Street	Contributes to a potential residential historic district	Good; retains integrity and historic form and materials with only minor alterations	See Figures 61–71 for district overviews
GVM 373	Edana Locus House/Ed and Anna Gardner House	201 East College Street	Contributes to a potential residential historic district	Good; retains integrity and historic form and materials with only minor alterations	See Figures 61–71 for district overviews
GVM 376	J.L. Sherrill Tobacco Warehouse	601 Dunbar Street	Meets N/R Criteria; contributes to a potential tobacco warehouse historic district	Good; retains integrity and historic form	See Figures 72–78 for district overviews

The remaining previously identified resources recorded during the windshield survey primarily consist of residences from the late nineteenth to the early twentieth centuries that represent common types and styles, including T-plans, Foursquares, Bungalows, and vernacular forms, as well as Queen Anne, Craftsman, Colonial Revival, and Tudor Revival style residences (Table 5). These resources either do not rise to an exemplary level of architectural significance or have undergone material changes, including replacement siding, replacement windows, and non-historic additions, that diminish their integrity and, as such, are unlikely to be eligible for listing in the NRHP. Apart from those resources included in Table 4, the remaining previously unrecorded resources along the study routes observed during the windshield survey, including those that are over 50 years old, did not appear to be potentially significant and/or retain sufficient integrity to potentially be eligible for listing in the NRHP.

The locations of the resources recorded during the windshield survey are included in the accompanying electronic shapefiles. The existing and potential historic district boundaries, properties listed in or previously determined eligible for listing in the NRHP, and potentially significant resources are mapped on the attached topographic quadrangles and aerial photographs and included with the accompanying electronic shapefiles. Initial recommendations for potential NRHP eligibility for the surveyed resources in the study area are included in the tables. Photographs of listed resources, resources previously determined eligible, and resources determined to hold potential significance, as well as overviews of existing or potential historic districts within the study area, are located in Appendix A. If you have any questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Trent Spurlock". The signature is written in a cursive, flowing style.

Trent Spurlock, MHP
Architectural Historian, Principal Investigator
