

Listed below are corrections and clarifications for projects included in the Kentucky Transportation Cabinet's Procurement Bulletin for Engineering and Related Services, Bulletin No. 97-7 dated March 1997.

Kenton County, Item 6-071.03, KY 1303

Response: Balke Engineers has completed Phase I design services for the Cabinet. The selected consultant for Phase II will be required to perform alignment revisions/refinements.

The scope of services for Item 6-071.03 in Procurement Bulletin 97-9 states that "the Consultant will be required to provide Phase II roadway design service..." Please clarify if Phase I plans have been completed and if so, who was the consultant who prepared the plans. Thank you for your assistance.

Johnson County, Item 12-294.00, KY 40

The PROJECT LENGTH was listed in the bulletin as 3.2 KM. the correct PROJECT LENGTH is 2.0 KM.

Statewide Traffic Forecasting

Criteria for Highway Traffic Forecasting

Consultants prequalified in the category of Highway Traffic Forecasting must possess and present evidence of the following: (1) knowledge of generally accepted traffic forecasting practices; (2) availability of, and experience with, various state-of-the-art traffic forecasting tools including computerized traffic simulation models; (3) recent experience involving traffic forecasting studies of adequate complexity for highway planning and design purposes. In addition, consultants prequalified in this category must be able to collect, or acquire, traffic data that may be needed for forecasting studies.

Mr. Stephen A. Williams, P.E.
Acting Director
Division of Professional Services
Kentucky Transportation Cabinet
