

**A REQUEST FOR PROPOSAL
FOR
PERSONAL SERVICES CONTRACT**

Department of Highways
Professional Services Procurement Bulletin 2011-08
District 7 Traffic Engineering Services

This document constitutes a Request for Proposals for Personal Service Contract from qualified individuals and organizations to furnish those services as described herein for the Commonwealth of Kentucky, Department of Highways.

I. PROJECT DESCRIPTION

County – Anderson, Bourbon, Boyle, Clark, Fayette, Garrard, Jessamine, Madison, Mercer, Montgomery, Scott & Woodford
Route – Various
Item No – N/A

Project Description – The selected consultant will be responsible for performing Traffic Engineering Services in Highway District 7. The selected consultant will conduct Traffic Counts, Speed Studies, Accident Studies/ Diagrams, Corridor Reviews, Emergency/Railroad Preemption, and other required Traffic Engineering functions. The selected consultant will provide Traffic Engineering functions. The selected consultant will provide Traffic Engineering recommendations and Engineering Drawings based upon the results of those Studies. This will include management of electrical contractors that are under contract to the Transportation Cabinet for electrical devices (Traffic Signals and Systems, Flashing Beacons, and School Flashers and Pedestrian Crossings outside of Fayette County) operation and maintenance, installation of new electrical devices, and changes to existing electrical devices.

II. PROJECT INFORMATION

Project Manager – Kelly Baker, T.E.B.M., District 7 Engineering Support
User Division – Highway District 7
Approximate Fee – Work will be assigned via letter agreement, not to exceed \$200,000 per letter agreement. This contract will have an upset limit of \$1,500,000.
Project Funding – N/A
Project Length – N/A

III. PURPOSE AND NEED

Perform Traffic Engineering Services to assist the Highway District 7 Traffic Engineer.

IV. DBE REQUIREMENT

None

V. SCOPE OF WORK

The selected Consultant must possess the expertise and capacity to be able to perform the Traffic Engineering tasks listed below:

Maintain continuous coordination with the Highway District 7 Traffic Engineer to schedule activities related to this Contract. Prepare reports detailing activities, results, and compliance with expected completion time-frames.

Traffic Counts-In general, 12-hr, 96-hr, peak hour, and turning movement counts (may be manual counts, electronic counts, or tube counts).

Intersection Delay Studies-In general, Intersection Delay Studies will be used to determine the total vehicle delay on a specific approach to an intersection. Intersection Delay is typically measured during the peak hour and includes the number of vehicles on the approach, the total vehicle delay (veh-hours), the maximum queue length for the approach, and the average delay per vehicle (seconds) on the approach.

Travel Time Studies-In general, the Travel Speed Studies will be for an arterial street. The study may involve multiple runs with all runs included in the study. The study should be performed with software developed by the Cabinet, using PDS and GPS units. Software shall be provided by the Cabinet. PDA and GPS units shall be provided by the Consultant. Studies will typically involve analysis collected.

Survey/Drawing/Inventory-The task order will indicate the degree of sophistication desired. In most cases, a good sketch with rough distances will be adequate. Inventories will be generally consist of equipment and support infrastructure.

Speed Studies-Speed Studies shall be conducted manually and in conformance with standard practice from the Traffic Control Devices Handbook or another acceptable traffic engineering reference. Speed Study data collected with tubes or other automated methods is unacceptable. Speed Study areas will be designated on a map with the number of required collection points per direction indicated. A standard reporting format (Excel spreadsheet) will be provided by the District Traffic Engineer. Based upon the studies performed as enumerated, prepare Engineering recommendations and drawings to accomplish the additions/changes that may result from those studies.

Manage the activities of electrical contractors that are under contract to the Transportation Cabinet in Highway District 7 for the Operation and Maintenance of electrical devices outside of Fayette County. This currently includes 294 Traffic Signals, 98 Flashing Beacons, and 145 School Flashers and Pedestrian Crossings. There are 17 Traffic Signal Systems incorporating 126 of the Traffic Signals. The Transportation Cabinet plans to modify or change the existing contracts with electrical contractors to include priority and emergency response time requirements.

Manage the activities of electrical contractors that are under contract to the Transportation Cabinet in Highway District 7 to make modifications and improvements to existing electrical devices as required.

Manage the activities of electrical contractors that are under contract to the Transportation Cabinet in Highway District 7 to install new electrical devices as required.

VI. SPECIAL INSTRUCTIONS

A general Services Master Agreement will be entered into for a period of 2 years with the option to renew for an additional 1 year if remaining upset limit exists. This contract will not be modified to increase the upset limit beyond the \$1,500,000.00 limit.

There will not be a Pre-Proposal Conference.

The selected Consultant will be assigned specific activities to perform, and will be paid in accordance with the prices established for the various activities. Task assignments will be based on the tasks that are performed to accomplish Traffic Engineering Services in Highway District 7. Work is anticipated in the general categories as indicated in the Scope. The selected Consultant must have the capacity to perform all of the Traffic Engineering Services enumerated above for Highway District 7. This will require rapid response to management of maintenance needs on a 24/7 basis, 365 days per year.

The selected Consultant must have the capability to collect and analyze the data from Traffic Studies that it may conduct, as well as the capability to work with the Cabinet's Highway Information System (HIS) database and GIS database. In general, the data must be transmitted electronically in standard KYTC formats.

Instructions for Response to Announcement can be found at:

http://transportation.ky.gov/properform/instructions_for_response_to_kentucky_transpo_ration_cabinet_6-9-09.pdf

VII. METHOD OF DESIGN

The selected consultant shall utilize the current CADD Standards for Highway Plans (version 3.0) policy in the development of the highway plans.

VIII. TRAFFIC

The department will provide all the necessary existing traffic counts for this project. The selected consultant will provide the necessary traffic projections and related information required for this project.

IX. PREQUALIFICATION REQUIREMENTS

To respond to this project, the project team must be prequalified in the following areas by the date of this advertisement.

TRAFFIC ENGINEERING

- [Traffic Engineering Services](#)
- [Electrical Engineering Services Roadway Lighting Services](#)
- [Electrical Engineering Services Traffic Signal Services](#)

X. PROCUREMENT SCHEDULE

Dates other than Response Date are tentative and provided for information only.

RESPONSE DATE • March 9, 2011 4:30 p.m. E.S.T. (Frankfort time)

FIRST SELECTION COMMITTEE • March 11, 2011

SECOND SELECTION COMMITTEE • March 30, 2011

CONTACT SCOPING CONFERENCE • April 13, 2011

NOTICE TO PROCEED • July 1, 2011

COMPLETION OF ALL SERVICES • June 30, 2013

XI. PROJECT SCHEDULE

Individual project schedules will be by letter agreement on a project by project basis.

COORDINATION WITH HIGHWAY DISTRICT 7 TRAFFIC ENGINEERING	CONTINUOUS
MANAGEMENT OF ELECTRICAL CONTRACTORS PER CABINET CONTRACTS:	AS REQUIRED
TRAVEL TIME STUDIES:	FOUR TO TWELVE WEEKS
SPEED STUDIES:	THREE WEEKS
SURVEYING/DRAWING/INVENTORY:	FOUR TO TWELVE WEEKS
TRAFFIC COUNTS:	THREE WEEKS
INTERSECTION DELAY:	THREE WEEKS

XII. EVALUATION FACTORS

1. Relative experience of consultant personnel assigned to project team with highway projects for KYTC and/or federal, local or other state governmental agencies. (10 points)
2. Capacity to comply with project schedule. (10 points)
3. Past record of performance on project of similar type and complexity. (10 points)
4. Project approach and proposed procedures to accomplish the services for the project. (10 points)
5. Consultant's offices where work is to be performed. (2 points)

For state-funded projects, if a Selection Committee vote results in a tie between two (2) firms,

one (1) of which will perform more of the work tasks in Kentucky than the other, then the former firm shall be ranked one (1) place ahead of the latter.

XIII. SELECTION COMMITTEE MEMBERS

1. Corrin Gulick, PE, User Division
2. Craig Price, PE, User Division
3. Joe Plunk, PE, Secretary's Pool
4. Marvin Wolfe, PE, Secretary's Pool
5. Howard Cruse, PE, Governor's Pool
