[2023-05 - Statewide Electrical Construction Inspection Services](#)

QUESTION: Several sections of the RFP are written like a regional contract. For example, the VI. Special Instructions indicates "Daily or weekly commuting time will not be paid." Please clarify whether the travel time from the office to the site and between structures are to be paid.

ANSWER: The advertisement has been revised to allow for travel time to be paid as a direct cost rather than included within the loaded wage rates for personnel. This travel time will include drive time from the consultant's office to the project location, mileage, and per diems for various daily inspections. Please see V. Scope of Work and VI. Special Instructions of the RFP for more information.
