A REQUEST FOR PROPOSAL
FOR
PROFESSIONAL SERVICES CONTRACT

Department of Highways
Professional Services Procurement Bulletin 2020-10
Statewide Structural Design of Culverts and Bridges Services

This document constitutes a Request for Proposals for a Professional Service Contract from qualified individuals and organizations to furnish those services as described herein for the Commonwealth of Kentucky, Department of Highways.

I. PROJECT DESCRIPTION

This statewide contract is to provide necessary Statewide Structural Design of Culverts and Bridges Services. Three (3) consultants will be selected to provide these services on an as-needed basis for two years.

II. PROJECT INFORMATION

Project Manager - Bart Asher, P.E.
User Division - Structural Design
Approximate Fee - $1,000,000 per contract (Upset Limit)
Work will be assigned via Letter Agreement, not to exceed $300,000 per Letter Agreement
Project Funding - State and Federal Funds
Contract Term - Two Years

III. PURPOSE AND NEED

To provide assistance to the Department of Highways, Division of Structural Design with structural engineering and design on an as-needed basis.

IV. DBE REQUIREMENT

None

V. SCOPE OF WORK

Structural design services for various structure types as assigned at the discretion of the Division of Structural Design.

The required consulting services will include all final structural design engineering and plan preparation necessary for letting a project to construction.

Consultant may be required to provide roadway design and surveying on some projects as necessary to prepare a complete set of plans.
VI. SPECIAL INSTRUCTIONS

Three (3) consultants will be selected to provide these services for a period of two (2) years with no new work assigned after two years from the Notice to Proceed, although the contract may be extended for time to complete work already assigned. Contracts will have an upset limit of $1,000,000. Once the upset limit is reached or the two year term has expired, services may be re-advertised and no additional Letter Agreements will be executed under the contract. Contracts will not be modified to increase the upset limit or extended for time to assign new work. No Letter Agreement shall exceed $300,000 without written approval from the State Highway Engineer.

The Selection Committee will randomly draw from the pool of selected Consultants and list in consecutive order to determine the initial order for which projects will be assigned. Projects will generally be assigned on a rotational basis. The Department reserves the right to select one of the firms outside of the assignment order for a particular project if it is to the benefit of the Department. That firm, if selected out of order, will be skipped in the rotation when their turn comes and the regular order will be followed thereafter. The Division of Structural Design reserves the right to group multiple projects together as one offering if it is advantageous to the Department. The Department may also add additional work to an existing Letter Agreement, if needed. A firm will not be offered an additional project until the remaining firms on the list have been offered a project. If a firm declines to accept a project, that firm will not be eligible to accept another project until the remaining firms on the list have been offered a project. If a firm declines a project or does not respond to an invitation to perform services for a project within five (5) business days, documentation shall be provided in the project files and the next firm on the rotating list shall be offered the project.

Instructions for Response to Announcement can be found at: https://transportation.ky.gov/ProfessionalServices/Pages/Respond-to-an-Announcement.aspx

VII. STANDARD PERSON-HOURS

The person-hours allowed for each “standard” bridge or component as shown below:

Substructures:
- Breastwall Abutments – 80 hours
- Stub Abutments – 30 hours
- Integral End Bents – 30 hours
- Single or Wall Piers – 70 hours
- Multi Column Piers – 70 hours With 8 hours for each additional column
- Intermediate Pile Bent – 50 hours

Superstructure (One, two or three spans):
- “Standardized Superstructures” – 1 hour
- Composite PPCDU (Slab Details per Span) – 10 hours
- Beam Details (Spread Boxes per Span) – 30 hours (includes shop plan review)
- Beam Details (Spread 1-beam per Span) – 30 hours (includes shop plan review)
- Slab Details (Design & Details per Span) – 30 hours
- Construction Elevations – 22 hours

Miscellaneous:
- Title Sheet – 18 hours
• General Note Sheet – 6 hours
• Layout Sheet – 22 hours
• Foundation Layout-Pile Layout Sheet – 10 hours
• Approach Slab (each) – 4 hours
• Reinforced Concrete Cantilever Retaining Wall – 40 hours per wall plus 40 hours per 100 linear feet
• Gravity Wall (Special Design or per Design Section) – 30 hours per wall plus 30 hours per 100 linear feet

Note: The above hours are based on a structure having a Zero (0) degree skew, no phased construction, and a straight structure (Add 10% to the total hours for a skewed structure. Add 25% to the total hours for a phased bridge. Add 25% to the total hours for a curved bridge.)

Culverts:
• One Barrel – 100 hours
• Two Barrel – 140 hours
• Triple Barrel – 180 hours

Culvert Extensions:
• One Barrel – 100 hours
• Two Barrel – 140 hours
• Triple Barrel – 180 hours

Culvert Standardized Drawings
• Standardized Culverts – 16 hours

Person-hours for non-standard structures will be negotiated on a case-by-case basis.

No additional hours will be allowed for skewed culverts.

VIII. METHOD OF DESIGN

Design shall be by American Association of State Highway and Transportation Officials (AASHTO) Load Resistance Factor Design (LRFD) Specifications, unless otherwise stipulated by the Project Manager. The selected consultant shall utilize the Computer Aided Design & Drafting (CADD) Standards for Bridge Design. All submittals shall be in the form of a CADD deliverable and pdf format. The CADD deliverable shall be in Microstation, .dgn format, using Division of Bridge Design File Format, Seed Files, Cell Files and Resource File.

IX. PREQUALIFICATION REQUIREMENTS

To respond to this project, the Consultant must be prequalified in the following areas by the response due date of this advertisement.

STRUCTURE DESIGN
• Spans under 500 feet

ROADWAY DESIGN
• Rural Roadway Design
• Urban Roadway Design
• Surveying

X. PROCUREMENT SCHEDULE

Dates other than Response Date are tentative and provided for information only.

- Advertisement Posted: April 14, 2020
- Response Date: May 6, 2020 by 4:30 PM ET (Frankfort Time)
- First Selection Meeting: May 11, 2020
- Final Selection: May 27, 2020
- Pre-Design Conference: June 3, 2020
- Notice to Proceed: June 24, 2020

XI. PROJECT SCHEDULE

Individual project schedules will be defined by Letter Agreement on a project-by-project basis.

XII. EVALUATION FACTORS

Consultants will be evaluated by the selection committee based on the following, weighted factors:

1. Relative experience of consultant personnel assigned to project team with highway project for KYTC and/or federal, local or other state governmental agencies. (15 Points)

2. Past record of performance on projects similar in type and complexity. (15 Points)

3. Project approach and proposed procedures to accomplish the services for the project. (12 Points)

4. Available team workload capacity to comply with project schedule. (8 Points)

5. Knowledge of the locality and familiarity of the general geographic area. (2 Points)

XIII. SELECTION COMMITTEE MEMBERS

1. Carl Van Zee, P.E., User Division
2. Joe Van Zee, P.E., User Division
3. Stewart Lich, P.E., Secretary’s Pool
4. Patrick Perry, P.E., Secretary’s Pool
5. Cole Mitcham, P.E., Governor’s Pool
