

RECOMMENDED HIGHWAY PLAN 2026-2032

Andy Beshear, Governor of the Commonwealth of Kentucky
JANUARY 2026

Andy Beshear
GOVERNOR

TRANSPORTATION CABINET

200 Mero Street
Frankfort, Kentucky 40601

Jim Gray
SECRETARY

January 16, 2026

TO: Recipients of the 2026 Recommended Highway Plan

On behalf of Governor Andy Beshear, the Kentucky Transportation Cabinet (KYTC) is pleased to present the 2026 Recommended Highway Plan. As required by the Kentucky Revised Statutes, Chapter 176, this plan is the means by which major highway improvement projects scheduled for the next six years are submitted to, and enacted by, the 2026 Kentucky General Assembly. The 2026 Recommended Highway Plan outlines scheduled highway project activities for the remainder of FY 2026 and for the FY 2027 through FY 2032 six-year planning period.

The Kentucky Transportation Cabinet's mission is to provide a safe, efficient, environmentally sound, and fiscally responsible transportation system that delivers economic opportunity and enhances the quality of life in Kentucky. In developing Kentucky's 2026 Recommended Highway Plan, KYTC is using highway system performance data to address bridge and pavement needs determined through asset management scenario planning.

Alongside the asset management scenario evaluations, KYTC also employs the SHIFT (Strategic Highway Investment Formula for Tomorrow) mechanism for ranking proposed highway mobility projects across the state. The 2026 Recommended Highway Plan is largely a data-driven document, seeking to balance existing system investments with needed safety, regional access, and economic development projects located across the Commonwealth.

This plan provides substantial state and federal funding to help address the significant backlog of pavement repairs and deficient bridges. Through the SHIFT Process, KYTC worked with legislators, local officials, Area Development Districts (ADDs), and Metropolitan Planning Organizations (MPOs) to weigh the relative need of individual projects. The SHIFT prioritization tool used technical data analyses to produce relative scores for projects being considered for the Highway Plan and was augmented by those local discussions. Asset management needs, engineering judgment, and KYTC's long-range vision and goals also contributed to the prioritization of Highway Plan investments.

For the 2026 Recommended Highway Plan, FY 2027 through FY 2032 funding estimates total nearly \$9.5 billion, including \$6.4 billion in federal funds, \$1.4 billion in required state matching funds, \$114 million in local matching funds, \$625 million in state construction funding expected to be available for state priority "SPP" projects, \$20 million of state road funds in FY 2027 and \$20 million of state road funds in FY 2028 for a County Priority Project ("CPP")

program, \$240 million in remaining General Fund money identified for “High Growth Counties” projects, and \$275 million of General Fund revenue recommended by the Governor to be made available for the Brent Spence Bridge Corridor Project (\$125 million) and the I-69 Ohio River Crossing (ORX) project (\$150 million previously authorized in the 2024 legislative session). The Governor’s Executive Budget recommends removing the condition that the \$150 million appropriation for the I-69 ORX be dependent upon Kentucky receiving a federal Multimodal Project Discretionary Grant (MPDG) award.

The federal dollars contained in this document are based on the Infrastructure Investment and Jobs Act (IIJA) enacted by Congress in November 2021. That federal law reauthorized existing federal transportation programs and provided opportunities for competitive discretionary highway grant funding. It is KYTC's goal to continue to compete favorably for those federal grants to help fund some of our larger projects, while also working closely with local governments to aggressively pursue grant funds for locally important projects.

Rapid increases in project costs have been experienced over the last four years across the national transportation landscape. The Federal Highway Administration’s National Highway Construction Cost Index shows that highway construction costs rose by 61% from 2020 to 2025. Across-the-board project cost increases coupled with increased state matching fund requirements have reduced the amount of leftover state funds that can be directed to 100% state-funded project opportunities. Kentucky’s Highway Program is more heavily dependent on federal programs in recent years, and all federal projects must be included in the federally required, fiscally balanced Statewide Transportation Improvement Program (STIP) for Kentucky.

Finally, it is important to recognize that this recommended highway plan is carrying forward many state-funded projects that were identified in past legislatively enacted highway plans, but funding has not been available to advance them. These projects are identified by the “SPP” fund code, a funding category with significant competition for very limited funds.

The 2026 Recommended Highway Plan provides a core group of projects designed to responsibly address key infrastructure priorities across Kentucky for the next six years. The Kentucky Transportation Cabinet is pleased to present this regionally diverse, priority highway funding plan.

Sincerely,

Jim Gray
Secretary

SYP NARRATIVE

I. Introduction

Factors Affecting the 2026 Recommended Highway Plan

The development of the Biennial Highway Plan and the recommended projects for the four years beyond the upcoming biennium constitute Kentucky's six-year highway plan. Highway system asset management and performance measures are used to prioritize projects involving pavement, bridge, and guardrail needs, while safety improvements, economic growth, traffic congestion, and new connectivity projects across the Commonwealth are prioritized through other methods, including the Strategic Highway Investment Program for Tomorrow (SHIFT). The costs of these investments are weighed against the anticipated annual state and federal funding, and, in recent years, efforts have concentrated on achieving fiscal balance within federal programs as required by federal law for both the Enacted Biennial Highway Plan and the out-four-years of the Highway Plan. In accordance with KRS 48.110 (6) (f) and 176.430, the Governor submits the Recommended Highway Plan to the General Assembly in January of each even-numbered year, and the General Assembly deliberates over, and enacts, a highway plan on or before April 15 with the final published version of the enacted highway plan made available by KYTC in June of each even-numbered year.

The 2026 Recommended Highway Plan is a practical action guide to support the Commonwealth's goal of building a better Kentucky through transportation. The journey is the safest when the roadmap is the clearest and this plan proposes effective ways to invest state and federal dollars to maintain and build our transportation system. With all users in mind, Kentucky's transportation strategy, vision, and mission for its highway system are as follows:

KENTUCKY'S TRANSPORTATION STRATEGY

Kentucky's transportation vision and mission statements serve to guide the strategies employed to most effectively utilize state and federal revenue streams to deliver needed highway system improvements.

Kentucky's Transportation Vision

Striving to be national leaders in transportation who provide transportation infrastructure and services for the 21st century that deliver new economic opportunities for all Kentuckians.

Kentucky's Transportation Mission

To provide a safe, efficient, environmentally sound and fiscally responsible transportation system that delivers economic opportunity and enhances the quality of life in Kentucky.

The Governor’s Recommended Highway Plan contains highway projects and programs that align with Kentucky’s vision and mission. It is critical that the Plan makes every effort to address the existing backlog of pavement and bridge needs while pursuing highway improvement projects that provide enhanced roadway safety for all users, improved regional access, and increased economic opportunity for each geographic region of Kentucky.

The 2026 Recommended Highway Plan is divided into five distinct focus areas to stress the commitment toward **Asset Management** (taking care of the existing roads and bridges), a **High Growth Counties Program** developed by the 2024 General Assembly, **Capacity Improvements** (providing new and improved roads to handle current and future traffic), a **“ZVARIOUS”** category of funds necessary to honor past funding commitments and support various ongoing program activities, and a **County Priority Projects Program**. The following sections outline each of these focus areas.

**Accordingly,
the 2026
Recommended
Highway Plan is divided
into five distinct
focus areas, enabling
the Kentucky General
Assembly to appreciate
KYTC’s commitment to
the following sections
outlined in each of
these focus areas.**

ASSET MANAGEMENT AND PERFORMANCE:

KYTC's Investment in Bridges and Pavements

KYTC owns and maintains the 7th largest bridge network and the 8th largest pavement network in the country. These assets are valued at \$96 billion.

Kentucky's bridges and pavements provide connections to businesses, agriculture, schools, health services and beyond. That responsibility is taken seriously with a strong process to align investments to bridge and pavement performance goals.

The six-year plan approach anticipates funding and represents a strategy to move Kentucky closer to those goals, address the needs of the state, and manage state exposure to unforeseen events. This budget stewardship through strategic plans avoids higher costs while moving the state transportation network closer to a state of good repair. The investment strategies within the plan reduce community interruptions and negative economic impacts while improving the safety of the travelling public and workers.

Kentucky faces bridge challenges. There is a significant shortfall between average annual bridge funding and projected needs for state-owned structures. Unmet timely bridge needs commonly result in posting bridges for lower weights, travel disruptions, unplanned costs that are higher, increased safety risks, and decreased economic benefits.

Kentucky's poor and fair condition pavements and bridges require active management. The planned investments utilize a combination of fixes to provide better outcomes statewide. The plan honors border bridge commitments, improves structures in smaller communities such as the Singing Bridge in Frankfort, while also focusing on large bridge projects like the I-65 Central Corridor in Jefferson County, the US 42 bridge over the Kentucky River in Carroll County, and the Cairo bridge in Ballard County. The I-65 corridor in Jefferson County is also a large need within the pavement program, along with several other I-65 bridge projects. The projects within the highway plan are complemented by the statewide pavement preservation budget and the maintenance budget. Lower cost preservation treatments will be required to balance rehabilitation and replacement projects. Responsibly maintaining and preserving bridges and pavements throughout their entire life cycle improves safety and mobility for the state.

HIGH GROWTH COUNTIES PROGRAM:

Developed by the 2024 General Assembly

In the 2024 Highway Plan there were 34 projects which were part of a new initiative for High Growth Counties (HGC). Those projects received a total of \$450M in General Funds to deliver projects across the Commonwealth. KYTC is working diligently to deliver all of these projects as identified within the 2024 Enacted Highway Plan. When developing and delivering transportation projects, KYTC strives to deliver the best value to the taxpayer in terms of quality, cost and time. KYTC will continue to evaluate each project and utilize the best available tools to deliver projects most efficiently and cost effectively.

The goal of the program was to provide additional funding to help deliver projects in growing Kentucky communities. As of the December 2025 letting, 27 of 58 phases have had HGC funding authorized, totaling more than \$209M. The remaining project phases have current estimates totaling just over \$362M for a total current estimate of \$571 million compared to the \$450 million appropriated. There are eight additional HGC projects that KYTC anticipates being able to award during the current (2024-2026) biennium and 11 HGC projects that have schedules which will see them ready to let to construction in the 2026-2028 biennium.

These projects are progressing through various stages of right-of-way acquisition, utility relocation, railroad coordination and other similar activities.

CAPACITY IMPROVEMENTS:

KYTC's Investment in Priority System Upgrades

Roundabout on KY 9 in Campbell County

To assist in the prioritization of highway capacity and improvement needs, KYTC developed a prioritization tool entitled the Strategic Highway Investment Formula for Tomorrow (SHIFT). The SHIFT process is a data-driven, objective, and collaborative approach to developing a geographically sensitive, data-informed highway plan. SHIFT was developed by KYTC through concerted interaction with the Cabinet's planning partners. During each highway plan cycle, KYTC continually seeks to improve SHIFT and its associated processes, always working to ensure that it employs the most current and effective technical methodologies.

An effective highway program must support all areas of system performance in a strategic way. Effective performance management requires an understanding of the interconnection between performance areas. Maximizing asset conditions at the expense of needed investments in the other performance areas would not lead to the best overall system performance. The SHIFT process is designed to address the connection between multiple performance areas. This system is a needs-based approach used to rank potential highway improvement projects by KYTC highway district for inclusion in the Highway Plan. The SHIFT formula is an objective process that uses data on safety, congestion, asset management, economic growth, and benefit-cost ratios to rank potential projects relative to others.

KYTC starts with a list of projects previously identified by state and local transportation leaders, Area Development Districts (ADDs), Metropolitan Planning Organizations (MPOs), and KYTC Districts. To move forward, projects must either be sponsored by local transportation leaders or be projects of statewide significance. KYTC districts coordinate with MPOs, ADDs, and state and local officials to ensure their priorities are considered.

KYTC Highway Plan projects are scored by SHIFT based on seven key attributes:

SHIFT key attributes are scored based on the following: **Safety scores** are calculated using the project location crash history and current roadway characteristics. **Congestion scores** are based on vehicle hours of delay. The **economic growth score** considers increased accessibility to jobs by decreasing travel times as a result of the project. The **benefit-cost ratio** represents the calculated benefits derived from anticipated travel-time and crash reduction savings divided by the project cost. The **asset management component** considers bridge and pavement needs within the project limits addressed by the proposed project. The **resilience measure** prioritizes critical roadways to ensure the continued flow of people and goods. The **non-motorized mobility component** considers proposed project improvements that include dedicated facilities for pedestrians, bicyclists and other non-motorized modes of travel.

Inherent in the use of SHIFT techniques is the appreciation of freight traffic and the significant burden that heavy freight volumes place on Kentucky's interstate highway system. The map shown below illustrates that the heaviest freight volumes in Kentucky occur on I-24 in Western Kentucky, I-65 between Nashville and Louisville, I-71 from Louisville to Northern Kentucky, I-75 north of London, and the I-71/I-75 Corridor in Northern Kentucky as the major freight arteries in Kentucky. The 2026 Recommended Highway Plan is emphasizing investments along these routes to ensure Kentucky roadways can adequately support regional and national freight traffic.

Estimated Average FAF Daily Tonnage Transported by Truck on National Highway System 2022

Note: Major flows include domestic and international freight moving by truck on highway segments with more than 100 FAF tons per day and between places typically more than fifty miles apart.
Source: U.S. Department of Transportation, Federal Highway Administration, Freight Analysis Framework (FAF)

The SHIFT prioritization process acknowledges current highway funding resource constraints, and offers a reliable, balanced approach to project prioritization, selection, and scheduling to use when applying state and federal highway funding across Kentucky's highway system. It is important to acknowledge, as KYTC continues to transition to institutionalized data-driven processes, that other information is necessary to consider alongside SHIFT scoring to develop a recommended highway plan. These considerations include investments-to-date and associated impacts to communities, fulfillment of previous Highway Plan commitments, the recognition of new transportation priorities designated by Congress through the Infrastructure Investment and Jobs Act (IIJA) and succeeding legislation, and completion of significant highway and transportation corridors across Kentucky.

“ZVARIOUS” FUNDING:

KYTC’s Investment in Ongoing Program Activities

The “ZVARIOUS” section of the 2026 Recommended Highway Plan is a long-standing element of KYTC’s biennial presentation of highway needs. In the early days of the Highway Plan, technology was limited and the way that these various program commitments were listed at the end of the alphabetical county-by-county listing of projects was to add a “Z” to the “Various County” identification for these programs. Over time, the “ZVARIOUS” heading has become accepted Highway Plan nomenclature.

Found under its own tab in this booklet, the **ZVARIOUS section of this Highway Plan** addresses programmatic needs and commitments, all designed to provide essential flexibility in implementing the upcoming biennial highway program.

Each of these activities are a critical part of KYTC’s annual highway construction program. The funds represented give KYTC the flexibility to react immediately to unanticipated bridge and pavement needs, as well as be in position to utilize federal and state funding as it becomes available for the indicated actions.

- » Emergency bridge repair and replacement funding
- » Anticipated federal funding for Intelligent Transportation Systems (ITS) activities
- » Anticipated annual Transportation Alternatives Program (TAP) funding
- » Anticipated annual Congestion Mitigation and Air Quality (CM) funding
- » Emergency pavement repair and rehabilitation funding
- » Statewide federal bridge inspection funding
- » Statewide federal Railroad Protective Devices (RRP) funding
- » Statewide highway project design funding to support the state and federal highway programs
- » Statewide replacement of bridge navigational lighting for safety purposes
- » Border State commitments to major river bridge repairs
- » Statewide rockfall and landslide mitigation and repair projects
- » Statewide rest area maintenance
- » Statewide safety needs for state highway dams
- » Statewide initiatives to enhance truck parking at rest areas, welcome centers, and weigh stations
- » Statewide federal Highway Safety Improvement Program (HSIP) funding
- » Statewide federal and state funding for HSIP projects for highway safety near schools
- » Statewide funding for bridge scour mitigation activities
- » Statewide funding for the Kentucky-specific Americans with Disabilities Act (ADA) transportation plan implementation activities
- » Statewide funding for federal Carbon Reduction Program
- » Statewide funding for federal Protect Formula Program
- » Statewide funding for Electric Vehicles Charging Infrastructure Program
- » Annual federal payback commitments for GARVEE Bonds used to support previously authorized and upcoming Highway Plan projects

“County Priority Projects” Program:

KYTC’s Investment in County Priority Projects

COUNTY PRIORITY PROJECTS PROGRAM/LOCAL ASSISTANCE ROAD PROGRAM (CPPP/LARP)

The County Priority Projects Program was converted to the “Local Assistance Road Program” (LARP) in House Bill 546, Section 3, (codified in KRS 176.243), as approved by the 2025 Kentucky General Assembly. The General Assembly increased the appropriation of \$20,000,000 to \$21,127,000 of road funds in FY 2026 to assist with improvements to county and city roads. The listing of LARP projects scheduled for FY 2026 were approved and itemized by the Kentucky General Assembly during the 2025 Regular Session through House Joint Resolution (HJR) 46. The projects in HJR 46 were pulled from a compendium of projects submitted by the Counties and Cities during the application cycle set out in House Bill 546.”

COUNTY/CITY BRIDGE IMPROVEMENT PROGRAM (CCBIP)

“The County/City Bridge Improvement Program (“CCBIP”) was included within the State Supported Construction Program, with \$25 million in each fiscal year of the FY 2025 - FY 2026 Biennium, for a combined total amount of \$50 million of state roads funds for the CCBIP. The CCBIP provides opportunities for the Counties and Cities to apply for funding to make repairs, engage in preservation activities, and/or replace County and/or City owned bridges. The number and type of projects funded through the program are listed below:

FY 2025: Phase I, II, and III:

- A. 58 Bridges funded:
 - 40 replacement projects
 - 18 repair/preservation projects
- B. Total funding authorized in FY 2025 - \$24,988,014

FY 2026: Phase IV and Phase V (through 12/31/2025):

- A. 29 Bridges funded:
 - 22 replacement projects
 - 7 repair/preservation projects
- B. Total funding authorized - \$13,766,307.20

Future cycles for Counties and Cities to submit project applications seeking FY 2026 CCBIP funding are as follows:

- Phase 6: Begins November 17, 2025 – closes February 13, 2026
- Phase 7: Begins February 16, 2026 – closes May 1, 2026

II. Environmental Update

Kentucky's Anti-degradation Policy Implementation Methodology contained in 401 KAR 10:030 requires that all project development activities address the protection of water resources. The regulation recognizes the Kentucky General Assembly's authority for approval of projects in the highway plan. Projects are included in the highway plan only after a measured decision that the project enhances the quality of life, vitality of the Commonwealth and promotes the public good. The provisions of the amended regulation specify that inclusion of a project in the highway plan satisfies the requirements for conducting an anti-degradation socioeconomic benefit demonstration. Inclusion of a project is an indication of the General Assembly's conclusion that the reduction in water quality that may occur as a result of the project is acceptable given the socioeconomic benefits to be derived. Citizens who may be concerned about the potential of a project to affect water quality should provide information to their legislator for consideration when evaluating projects for inclusion in the highway plan.

Main Street Reconstruction Project in Downtown Danville, Kentucky

III. Revenue Estimates and Assumptions

The 2026 Recommended Highway Plan is based on the most recent federal and state revenue estimates. State and Federal revenue estimates have been assumed to be “flat-lined” from FY 2027 through FY- 2032. Federal highway programs received a much-needed boost through the Congressional passage of the Infrastructure Investment and Jobs Act (IIJA) of 2021. This federal legislation expires in 2026, and the reauthorization of federal programs is expected to be addressed appropriately by Congress. As the chart below shows, the IIJA reauthorized federal formula highway funding

at amounts that exceeded the previous authorization act by approximately \$683 million over the five- year life of the new act. These additional funds are spread throughout the formula federal-aid highway programs with dollars escalating each year. The average five-year formula funding to Kentucky under the IIJA is \$916.2 million per year compared to the previous five-year “FAST Act” average formula funding level of \$721.8 million annually. While the IIJA did increase federal formula program size by \$194.4 million, or about 27%, **the Federal Highway Administration’s (FHWA’s) National Highway Construction Cost Index (NHCCI) shows that highway construction costs rose by 61% from 2020 to 2025.** The IIJA also provided a significant infusion of Federal General Fund dollars targeted toward fixing America’s deficient bridges, including about \$94 million allocated to Kentucky each year.

While the increase in formula federal-aid highway funding is certainly welcome, it should be noted that three new formula programs were also added by Congress through the IIJA. The first is a carbon reduction program (“CARB”) to provide funding to states for activities that reduce carbon dioxide emissions from on-road highway sources. The second is a Promoting Resilient Operations for Transformative, Efficient, and Cost-Saving Transportation (“PROTECT”) program to help states improve the resiliency of transportation infrastructure. The third was a formula allocation to assist each state in developing an Electric Vehicle (EV) charging network that has since been adjusted significantly.

The IIJA also provided competitive transportation grant programs to be administered by the United States Department of Transportation (USDOT). These grant programs require the states to formally apply for the funds with USDOT determining the grant winners. The following are some of the key grant programs through which KYTC has applied for project assistance:

- » The Multimodal Project Discretionary Grant (MPDG) Program which includes the National Infrastructure Project Assistance grants program (Mega*), the Nationally Significant Multimodal Freight and Highways Projects grants program (INFRA*) and the Rural Surface Transportation Grant program (Rural)
- » The Better Utilizing Investments to Leverage Development (BUILD)/formerly called RAISE Program*
- » The Bridge Investment Grant Program (BIP)*
- » The PROTECT Grant Program (supplements the formula PROTECT Program)*
- » The Wildlife Crossings Pilot Grant Program*
- » The Reconnecting Communities and Neighborhoods Grant Program*

**Denotes grant program from which Kentucky has received funding.*

While KYTC cannot predict with certainty that it will receive USDOT federal competitive grant funding, it will actively seek federal grant funding at every opportunity. Some of the larger projects for which grant funding has, or will likely, play a major role are the I-71/75 Brent Spence Bridge Corridor Project in Northern Kentucky, the I-69 Ohio River Crossing (ORX) at Henderson-Evansville, and the construction of the 4-lane Mountain Parkway Extension along a new alignment from Salyersville to Prestonsburg. Kentucky and Ohio received \$1.6 billion in BIP and Mega Grant funding for the Brent Spence Bridge project in 2022, BIP and MPDG applications have been submitted for the I-69 Ohio River Crossing, and a \$116.3 million MPDG grant was received for the Mountain Parkway Extension project.

The 2026 Recommended Highway Plan is based on using the IIJA authorized formula federal-aid funding projections for Kentucky as provided by FHWA. These authorized funding levels were used to develop the funding chart in Figure 1 and are subject to the annual federal appropriations process. Congressional appropriators could change these numbers slightly but, at the time of this writing, FHWA's formula funding calculations represent the best estimate of annual federal funding through Federal FY 2026. For the purposes of this highway plan, the Federal FY 2026 funding levels have been extended through Federal FY 2032.

In preparing the 2026 Recommended Highway Plan, both federal and state revenue sources have been considered and the projected state and federal-aid highway funds made available to KYTC for major highway projects are displayed in Figure 1. Consistent with past trends and current forecasts, this edition of the Recommended Highway Plan is being developed on the basis of the most recent federal transportation authorization, the IIJA, and state revenue estimates consistent with projections made by Kentucky's Consensus Forecasting Group (CFG). The CFG is a committee of specially designated experts whose revenue forecasts are used by the Executive Branch and the General Assembly to craft the biennial state budget.

For the 2026 Recommended Highway Plan, FY 2027 through FY 2032 funding estimates total nearly \$9.5 billion, including \$6.5 billion in federal funds, \$1.4 billion in required state matching funds, \$114 million in local matching funds, \$625 million in state construction funding expected to be available for state priority "SPP" projects, \$240 million in remaining General Fund money (from the \$450 million budgeted in the 2024 2026 Budget) identified for "High Growth Counties" projects, a total of \$275 million of General Fund revenue (\$125 million expected to be made available for the Brent Spence Bridge Corridor Project and \$150 million for the I-69 Ohio River Crossing (ORX), and \$40 million of state road funds for HJR 92/CPP projects. Kentucky and Indiana are also planning to toll the I-69 ORX which is expected to generate another \$175 million of I-69 ORX toll revenue bond funding for each state.

It is important to note that the ability of KYTC to provide the federally required, regular state matching funds and to undertake major state-funded projects is a function of available State Road Fund cash and requires the careful management of State Road Fund expenses. The Cabinet is committed to maintaining cash to a "floor" of \$100 million. The cash management process (as described in "Section II, Part B") currently yields daily cash balances for internal use and provides information for monthly meetings where estimated future cash outlays, including state matching funds for the federal-aid program, can be updated and project funding decisions can be refreshed. As KYTC has gained experience with this process, confidence has grown in both the methodology and the resulting cash flow decisions.

FIGURE 1

FEDERAL AND STATE HIGHWAY FUNDING LEVELS AVAILABLE FOR OBLIGATION FROM 2027 THROUGH 2032 *(\$9.5 Billion estimated by Kentucky Transportation Cabinet)*

A. Federal Revenue Projections

The FY 2027 - 2032 federal revenue forecasts are based on expected formula federal-aid allocations from the IIJA through FY 2026 and straight-line projections for FY 2027 - FY 2032. The use of straight-line projections for FY 2027 through FY 2032 is a FHWA approved methodology for estimating revenue in years beyond the period covered by the current federal authorization act. Expected state-by-state levels of federal-aid highway funding under the IIJA were calculated by FHWA and the resulting category-by-category formula funding amounts were provided through “apportionment tables” for each federal fiscal year.

Figure2 shows the anticipated federal funding category target amounts used to fiscally balance the 2026 Recommended Highway Plan. The anticipated total formula federal-aid dollars and matching funds available to fund projects scheduled for FY 2027 through FY 2032 is expected to be about \$7.9 billion. While the recommended 2026-2028 budget and out-year assumptions include sufficient state highway funding to match formula federal-aid dollars through FY 2032, the opportunity to apply for IIJA competitive grant programs that have state matching fund requirements, will be limited by state funding availability. The Brent Spence Bridge Corridor project federal competitive grant award benefitted from the devotion of \$250 million in additional state monies through the General Fund in the 2022-2024 budget and the Mountain Parkway Extension project benefitted from the devotion of \$150 million in additional state General Fund commitment in the 2024-2026 budget. The Recommended 2026-2028 budget includes funding from the General Fund to supplement the Brent Spence Bridge Corridor Project (\$125 million) and language to free-up the previously appropriated \$150 million from the General Fund for the I-69 Ohio River Crossing at Henderson-Evansville. Kentucky and Indiana are also planning to toll the I-69 ORX which is expected to generate another \$175 million of I-69 ORX toll revenue bond funding for each state.

Another federal program concern is the FHWA’s requirement of “fiscal constraint” for the federal-aid highway element of the highway plan. The federal portion of the Highway Plan is required by federal law (23CFR 450) to be fiscally balanced. Immediately upon completion of the state legislative process, KYTC begins preparing the update to the federally required Statewide Transportation Improvement Program (STIP). To the extent fiscally possible, the new STIP will incorporate the federal projects from the 2026 Enacted Highway Plan and will be submitted to FHWA for approval in mid-Calendar Year 2026.

Fiscal constraint for federal-aid highway funding is an important consideration for federal agencies, and the STIP is the document through which fiscal constraint is measured. Any state efforts that result in over-programming of the federal element of the highway plan cannot be accommodated by the federal rules governing the STIP process. Failure to gain FHWA approval of the STIP would result in the suspension of the annual federal-aid program and its approximate \$1.06 billion annual funding for Kentucky. As the STIP is prepared, KYTC will work to achieve federal program fiscal balance while recognizing the expectation that more projects will be accomplished than there will be dollars available to accommodate.

NOTES:

NOTE 1: Years FY-31 and FY-32 were straight-lined from FY-30. "SPP" Funding is estimated by KYTC Budget staff.

NOTE 2: BIL and IF Funding will be determined/accounted for as the 2026 Recommended Highway Plan evolves.

NOTE 3: The above amounts for "Pavements" do not include \$150M/year in FD05 for FYs 26-32.

This planned FD05 investment provides an additional \$900 Million of Asset Management funding over the next 6 years.

NOTE 4: Current GARVEE Debt Service will be funded from "NH". New GARVEEs will be added for BSB in 2028 at \$150M, and for the ORX in 2029 at \$150M (annual debt service amounts entered above).

NOTE 5: Funding for the "BRO (Bridges on System) Cairo Bridge" category was redirected from the NHPM fund source in each year as indicated.

B. State Project Funding Projections

A forecast of \$2.04 billion in state road fund cash is expected to be available to support new state-funded highway plan project obligations between FY 2027 and FY 2032. This amount is based on the projected state road fund revenue minus the non-federal state funded fixed budgetary costs and remaining expenditures of currently authorized projects not yet completed. The projected available state road fund cash is based upon a number of assumptions about project cost payouts, revenues accruing to the Road Fund, non-Six-Year Plan costs, state bond debt service payments, unexpected cost increases, and project change orders. Actual decisions about when to obligate state project dollars and how much state project work can be afforded at any point will be made by the Secretary of Transportation and based on monthly cash management evaluations received from KYTC's Authorization Review Team (ART).

The ART consists of the Cabinet's Secretary, Deputy Secretary, the State Highway Engineer and deputies, and the KYTC Budget Director. These individuals work closely together to monitor the state funding cash balance, meeting monthly to carefully evaluate actual expenditures for the prior month and planned expenditures for upcoming months relative to future fiscal capacity calculated from ongoing project and program cost projections. Every planned, state-funded project funding decision undergoes a rigorous two-part assessment in which the following questions are asked: (1) Is the project ready to move forward from the project development standpoint? (2) Can KYTC afford to move the project forward considering the cash flow implications of doing so? Only a satisfactory response to both questions permits a project to move forward in the funding process.

The ART provides approval for authorization of state and federal funding for preconstruction phases of projects, for awards of construction phases, system preservation activities, and other highway program activities. The ART takes the necessary steps to assess all planned program outlays and manage cash flow.

In summary, KYTC's current projection of state road fund revenues available for state project obligations for the Highway Plan's "SPP" projects and state matching funds for the federal-aid highway funding program are as follows:

State Road Fund Availability FY 2027 through FY 2032

FISCAL YEAR	State Matching Requirement	SPP Project Dollars
FY-2027	\$235 million	\$50 million
FY-2028	\$235 million	\$115 million
FY-2029	\$235 million	\$115 million
FY-2030	\$235 million	\$115 million
FY-2031	\$235 million	\$115 million
FY-2032	\$235 million	\$115 million
Total	\$1.410 Billion	\$625 Million

As Column 3 (SPP Project Dollars) of the previous table demonstrates, KYTC anticipates very limited road fund capacity to pursue “SPP” projects from the 2026 Recommended Highway Plan. Both the 2024 Recommended Highway Plan and the 2024 Enacted Highway Plan recognized previously enacted highway plan projects and contained considerably more “SPP” projects than we expected to have dollars available to implement. The following table shows the extent to which both documents contained more “SPP” projects than dollars expected:

2024 Biennial Highway Plan Total Dollar Amounts for “SPP” Funding			
State Funding Category	2024 Recommended Highway Plan Amount	2024 Enacted Highway Plan Amount	2024-2026 Biennial Dollars Forecasted by KYTC to be Available for “SPP” (\$170M/yr)
SPP	\$1.887 Billion	\$1.023 Billion*	\$340 Million

*Difference funded through HGC or slipped into the “out years” of the Enacted Highway Plan

Since the 2024 Enacted Biennial Highway Plan was executed, KYTC has been working to implement as many SPP projects as possible, as quickly as possible. As we prepare the 2026 Recommended Highway Plan, it is evident that a very large funding gap remains. In developing the 2026 Recommended Plan, KYTC elected to carry forward all SPP project activity that was not authorized in the current biennium, recognizing that cost increases have rendered the SPP element of the highway plan even more substantially “over-subscribed”.

Debt Service projections for the upcoming biennium and beyond are shown in Figure 3. This chart illustrates that the current federal and state road fund debt service totals approximately \$1.3 billion over the life of the bonds (2026 through 2042). As the note below the chart says, this debt profile includes the \$300 million of GARVEE Bonds authorized, but not yet sold.

FIGURE 3

*Includes estimated Federal Fund and Road Fund debt service for \$300 million in authorized but unissued debt for GARVEE bonds and Road Fund debt service for \$12.5 million in authorized but unissued debt for the KDLIS driver licensing program.

C. “SPP” Advisory

It is important to recognize that this recommended highway plan is carrying forward many state-funded projects that were identified in past legislatively enacted highway plans, but funding was not available to advance them. Those projects are identified by the “SPP” fund code, a funding category with significant competition for very limited funding. As shown in the “State Road Fund Availability” chart above, the 2026 Recommended Highway Plan assumes there will be \$625 million of SPP funding available from FY 2027 through FY 2032. The amount of SPP projects being carried in this highway plan exceeds \$11.5 billion for that same timeframe.

IV. Kentucky Mega Projects

Brent Spence Bridge Project

KYTC has worked alongside the Ohio Department of Transportation (ODOT) for many years to pursue funding for a project to provide relief from the traffic congestion that has been a major chokepoint for freight movement in the I-71/75 Corridor that crosses the Ohio River. With the passage of the IIJA, the states were elated to see that Congress determined the Brent Spence Bridge freight chokepoint as a major infrastructure problem that the nation must solve. In 2022, KYTC and ODOT were provided \$1.6 billion in federal grant funding under the IIJA to offset a large portion of the project's cost. The project will provide a companion bridge for the Brent Spence Bridge and rework the bridge approaches on both sides of the river to achieve the freight capacity so desperately needed at this location. Kentucky's share of the estimated cost of the Brent Spence Bridge Project is still being finalized with the selected "progressive design build" contractor and will be covered by federal grant funding, regular matched federal NH funds, state General Fund money, state matching funds, and GARVEE bonds. Construction of this massive project is expected to begin in early 2026 when the construction of the new companion structure gets underway.

I-69 Ohio River Crossing Project

KYTC is working closely with Indiana to fund the remainder of the new I-69 bridge and approaches at the Ohio River between Henderson and Evansville. Each state is currently engaged in building approach work on its respective side of the Ohio River with KYTC having recently completed “Section 1” from the Henderson Bypass to US 60, and the Indiana Department of Transportation (INDOT) having under construction “Section 3” of the project which ties into existing I-69 at Evansville. It is anticipated that the Ohio River crossing (“Section 2”) will be ready to move to construction around the Year 2027, or sooner if federal grant funding is received. The 2024 General Assembly under Senate Bill 91, Section 55, appropriated General Funds from the Budget Reserve Trust Fund Account (KRS 48.705) in the amount of \$150 million in Biennial Highway Construction Plan funding for the I-69 ORX project contingent upon award of a federal Multimodal Project Discretionary Grant for the project. The Recommended 2026-2028 budget removes the contingent language, seeking to free-up the previously appropriated \$150 million from the General Fund for use by the I-69 ORX project. Kentucky and Indiana are also planning to toll the I-69 ORX which is expected to generate another \$175 million of I-69 ORX toll revenue bond funding for each state.

Kentucky’s share of the funding necessary to develop the river crossing, “Section 2”, component of the project is \$520 million. The 2026 Recommended Highway Plan uses matched federal NH Funds, toll revenue financing, and a combination of federal grant funding, state General Fund monies, and GARVEE Bonds alongside Indiana’s cost share to complete the I-69 Ohio River crossing. Inflation, financing costs, and interest could increase these costs, but the states are committed to seeing the project through to completion. When the Ohio River crossing is complete, I-69 will be complete from the Tennessee Border all the way to Indianapolis.

Mountain Parkway Expansion

KYTC initiated work to 4-lane the Mountain Parkway from Campton through Salyersville (orange and green sections on the above map) in 2014. The final segments of that section of the parkway are currently under construction. Consideration has now shifted to extending the Mountain Parkway as a modern 4-lane facility eastward to Prestonsburg. The extension from Salyersville to Prestonsburg (see the blue line above) would complete the vision of a 4-lane highway connection all the way from I-64 at Winchester to the US 23 Corridor at Prestonsburg. The 2022 and 2024 Enacted Highway Plans provided funding for the Mountain Parkway Extension project, and a design-build team is currently delivering the project. The project is to be located on new alignment north of the existing route.

Part of the Mountain Parkway Expansion

V. Historic Construction Awards

Over the past 35 years, KYTC's ability to deliver needed construction projects for the citizens of Kentucky has ebbed and flowed in accordance with available state and federal funding dedicated to that purpose. As the chart below indicates, recent years have seen the calendar-year construction awards vary from year-to-year with the highest years representing funding for major projects, most notably the Louisville and Southern Indiana Ohio River Bridges project in 2012. KYTC works to deliver a consistent annual program of lettings, thereby ensuring its appropriate contribution to Kentucky's economy.

HISTORIC CONSTRUCTION AWARDS CHART December 2025

FIGURE 4

VI. Program Continuity

The 2026 Recommended Highway Plan represents a major step toward achieving Kentucky's transportation vision, mission, and goals. As we look ahead to both Congressional and state legislative expectations for our highway program, KYTC must protect past investments in the existing highway system by at least maintaining the total funding made available for roadway pavements and bridges. Using performance and data-driven pavement and bridge prioritization processes, \$3.4 billion of state and federal-aid funding is allocated in this plan for FYs 2027 through 2032 toward preserving Kentucky's existing road and bridge infrastructure. This amount represents about 40% of the total funding expected to be available through FY 2032, an amount consistent with the 2024 Enacted Highway Plan.

The remainder of the funds allocated for use in this highway plan upgrade the existing highway system by enhancing roadway safety for all users, relieving traffic congestion, improving existing routes for freight accommodation, or completing roadway connections that will bring economic opportunity to the Commonwealth. In addition to the regular state and federal funding made available through the federal government's enactment of the IIJA and the state legislature's enactment of the previous highway plan, the IIJA created many new sources of competitive federal grant funding that Kentucky has demonstrated it is prepared to pursue. The 2026 Recommended Highway Plan references pursuing those grant programs for significant funding for the construction of the I-69 Ohio River Crossing (ORX) project and other specific locations across Kentucky including the I-65 Central Corridor, a major bridge bundling project on I-65 in Downtown Louisville. There are many other projects across Kentucky that state and local governments are coordinating efforts to pursue federal grant funding in the months ahead.

To quote Kentucky's Transportation Strategic Plan, "A good plan is like a road map - the journey is the safest when the road map is the clearest." The 2026 Recommended Highway Plan presents a clear path forward that provides both essential highway system investments and enhanced future opportunities for the economy and quality of life for Kentucky's citizens.

HIGHWAY IMPROVEMENT PROJECTS LISTING

KEY TO INTERPRETING THE INFORMATION PRESENTED FOR HIGHWAY PLAN PROJECTS

EXAMPLE:

KYTC PROJECT IDENTIFICATION NUMBER
COUNTY: **Adair** ROUTE: **KY-55** BEGINNING AND ENDING MILEPOINTS (State Primary Roadway System): **From MP 15.900 To 16.000** YEAR OF SIX-YEAR HIGHWAY PLAN & ITEM NUMBER FROM WHICH ABOVE ITEM NUMBER WAS DERIVED: **8-80003.00** LENGTH (MILES): **0.10**

DESCRIPTION OF PROJECT AND PROJECT WORK TYPE
On NHS: YES Description: **KY 55 NEW TURNING LANE AT BETTY'S ON COUNTRY COOKING. (18CCN)(2020CCR) (2022CCR) (2024CCR)** Type of Work: **SAFETY(P)** Bridge ID:

FISCAL YEAR IN WHICH PHASE ACTIVITY SHOULD COMMENCE. FOR EXAMPLE, FY 2027 BEGINS JULY 1, 2026 AND ENDS JUNE 30, 2027 FOR STATE PROJECTS. FOR FEDERAL-AID PROJECTS, FY 2027 BEGINS OCTOBER 1, 2026 AND ENDS SEPTEMBER 30, 2027.

PHASE COST OR TOTAL COST IN SCHEDULED YEAR DOLLARS

Item#: **8-80003.00** Parent#: **8-80003.00** Length: **0.10**
Plan Year: **2018** Parent Year: **2018**
