

TYPICAL BARRIER SECTION

① Mandatory roughened construction joint with "V-Groove Rustication". Concrete above this joint is to be placed after slab has been properly cured and included in the bid for Rail System, Type 4.

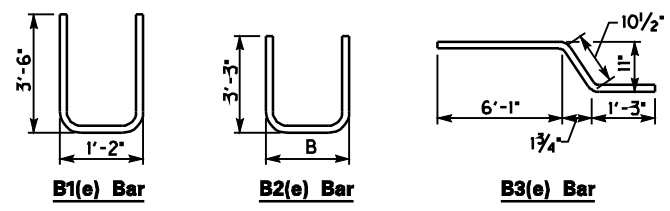

PLAN OF BARRIER

General Notes

MEASUREMENT: The linear foot bid for the barrier is measured along the roadway gutterline. Include all reinforcement shown and all concrete above the top of slab in the bid item.

REINFORCEMENT: All reinforcement shown on this sheet is to be Size #5 and epoxy coated. Use stirrup bend diameters for all bent bars. Straight reinforcement is to be lapped 2'-2" when necessary.
