NOTICE DATE: January 19, 2022**

The Office of Transportation Delivery of the Kentucky Transportation Cabinet is seeking proposals from public and non-profit entities to assist in the delivery of public and specialized transportation services. Services would be provided under 49 U.S.C. Sections 5303, 5304, 5310, 5311, and 5339, including all amendments. These transportation programs have been reauthorized through the yearlong extension of the FAST (Fixing America's Surface Transportation) Act.

Section 5303 provides Federal transit planning assistance with required local match to assist with the development of long-range transportation plans and transportation improvement programs for metropolitan planning areas of the State as well as the establishment of performance targets that address national transit performance measures issued by the US DOT and based on goals outlined in law.

Section 5304 provides Federal statewide and non-metropolitan transit planning assistance with required local match to encourage and promote the safe and efficient management, operation, and development of surface transportation systems that will serve the mobility needs of people while working and coordinating with the State, regional transportation planning organizations and public transit operators.

Section 5311 provides Federal operating, planning and capital assistance with required local match for general public transportation assistance in rural areas with populations less than 50,000. Section 5311 coordinates programs and services to improve service levels in areas with minimal service and assists in the maintenance and improvement of public transportation systems in rural areas. This program also provides services to low-income individuals for job access and reverse commute projects. Grants to support public transportation in the Appalachian region are also available under this program. Federal regulation requires that 15% percentage of these funds be reserved each year to support an Intercity Bus Program (5311(f)), unless the Governor of a state certifies that intercity bus needs in the state are being met. Through the Rural Transit Assistance Program (RTAP) funds are distributed to aid in the implementation of training and technical assistance of projects and support services tailored to meet the needs of the transit operators in these non-urbanized areas.

Section 5339 provides funding to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities. This program requires up to a 20% local match.

Section 5310 provides Federal capital assistance with required local match (20%) for eligible agencies that help increase the mobility of seniors and individuals with disabilities in urban or non-urbanized areas where transportation services are unavailable, insufficient, or inappropriate. At least 55% of program funds MUST be spent on these types of capital programs. The remaining 45% of the State allocation MAY be used to provide funding for services for individuals with disabilities that go above and beyond the requirements of the Americans with Disabilities Act

(ADA). These funds may be used for operating expenses at a 50% local match or for capital expense with a 20% required match. Local transit providers must participate in the development of a Coordinated Public Transit-Human Service Transportation Plan.

COORDINATED PUBLIC TRANSIT-HUMAN SERVICE PLAN: All applicants must be part of and included in an approved, locally-developed Coordinated Plan.
