

# Sheriff's Inspection Functionality in KAVIS

**Audience:** MVL and County Clerk Staff

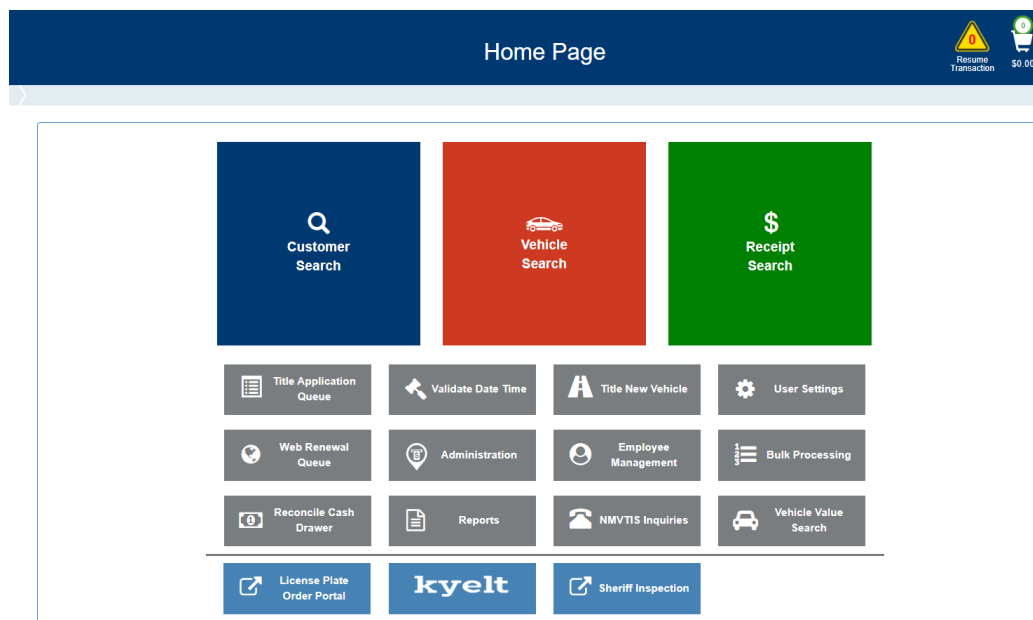

**Last updated:** September 16, 2025

## Overview

Kentucky has built a new application to log and store sheriff's inspection results. This application eliminates the need for paper inspection documents and with the roll out of this technology, paper inspection forms will be phased out. From KAVIS, users can access a link to the sheriff's inspection application in order to view inspection results. Please note that inspection data and access to the inspection application is not managed by KAVIS.

**Accessing the Link in KAVIS:** A link will be available in the following locations and will open a new browser tab:

- KAVIS home screen
- New title application – step 2, Vehicle Information applicable to the following title application types
  - Out of State Transfer
  - Classic Out of State Transfer
  - Classic Other First
  - Classic Update
  - Rebuilt Out of State Transfer
  - Rebuilt Dealer Assignment
  - Other First
  - Update
  - Rebuilt
- Clerk review queue – vehicle summary
- MVL review queue – vehicle summary

Back To Application Queue

When the inspection link is accessed from a title application or review queue, KAVIS will populate the VIN from the vehicle into the search field in the inspection application. Once the VIN is queried, the app will return inspection results. Please note results or data returned from the app is not controlled by KAVIS.
