The Kentucky Transportation Cabinet (KYTC), District 10 will hold a public informational meeting for the proposed KY 82 improvement project on December 11th at the Estill County High School Cafeteria in Irvine, KY. This section of KY 82 improvement project begins at the KY 82 / KY 89 intersection (MP 0.0) and ends just north of Hudson Mill Road (MP 4.1). The project, as planned, will improve highway safety and operation, correct geometrics, and enhance regional connectivity along this highway corridor. Design efforts and environmental studies are underway, to be completed in the next few months. These will help KYTC define the costs and impacts associated with the proposed project.

The purpose of this meeting is to get input from the public on the proposed project, to assist in this decision-making process. KYTC is seeking your input and to gain an understanding of important community and environment resources. Handouts containing information about this project, comment sheets, and displays will be available at the meeting. Representatives from the KYTC and their consultants will be available to answer questions. Written comments will be accepted, and information made available, up to 15 days after the meeting at the District 10 Office address listed below.

Written comments from this meeting will become a part of the official record for the project. Once compiled, the meeting record will be made available for review and copying only after an Open Records Request has been received and approved. All Open Records Requests must be submitted to the Office of Legal Services, Transportation Cabinet Office Building, 200 Mero Street, Frankfort, Kentucky 40622.
