Kentucky TRNS*PORT Information Series

SiteManager Materials Module

Welders Report Window

Navigation

Main Panel \ Materials Management \ Approved Lists Reports \ Welders Report

General Description

The Welders Report Window displays welder information. The report may be generated by the following criteria: Geographic Area, Welder Type, Weld Process, Weld Position, or Weld Type.

Procedure

KYTC will generate the custom "Qualified Welder Report" to show welder qualifications and when a qualification is expiring.

This report will not be used by KYTC.
