QUESTIONS: We are seeking clarification on Item No. 4-125.0 advertised in Bulletin 2001-08. The project schedule milestones shows an environmental assessment and final EA/FONSI on pages 1 and 2, but an environmental overview by the Department is shown on page 3. There is no mention of pre-qualification requirements for environmental on the project. This project is Federally funded and on new alignment, which normally indicates that environmental is by the Consultant.

We think that the northern terminus of the project at Ky. 55 may be Hendrickson Drive rather than Henderson Drive. We could find no Henderson Drive in the area.

ANSWERS: This project will require an Environmental Assessment. It was my intention that the E.A. done by the project consultant.

The correct name of the street is HENDRICKSON DRIVE
