

2009-04 – Statewide Value Engineering

QUESTION: How may the KYTC Draft Value Engineering Review Guidelines, Draft & Draft Constructability Review Procedures may be obtained?

ANSWER: Click the following links: [Value Engineering Guidelines](#) and [Constructability Review](#).

2009-04 – Statewide Value Engineering

UPDATED: The Advertisement has been updated with the following addition to the SPECIAL INSTRUCTIONS:

Two (2) firms will be selected to provide these services. The contract period is each firm receiving a two (2) year contract. Work will be assigned via letter agreement, not to exceed \$50,000 per letter agreement. Contracts will have an upset limit of \$250,000. Once the upset limit is reached or the two year term has expired, services will be re-advertised and no additional work assignments will be made under the contract. Contracts will not be modified to increase upset limit or extended for time to assign new work.

The Selection committee will randomly draw from the pool and list in consecutive order to determine the initial order for which a project will be offered. Projects will be offered to firms on a rotating basis. A firm will not be offered an additional project until the remaining firm on the list has been offered a project. If a firm declines to accept a project, that firm will not be eligible to accept another project until the remaining firm on the list has been offered a project. If a firm declines a project; does not respond to an invitation to perform services for a project within fourteen days; or the Department and Consultant can not agree on a reasonable scope of work and fee for services , documentation shall be placed in the project files and the next firm on the rotating list shall be offered the project.

**The above Q & A section is dealing with the 2009-03 Project Listing
(Former name Bulletins)**
