Description:	Safety project for reconstruction of Creek. (2016BOP). Project length is 0	•	•	ection and bridg	e over Pope Lick
Purpose & Need:	Improve intersection safety and maintain continuity for roadway users, park users, and local residents at and near the KY 155/South Pope Lick Road intersection in eastern Jefferson County. This project is needed because traffic has increased significantly with recent developments in the area including the new 4,000 acre Parklands of Floyds Fork recreational area making it difficult for vehicles to turn onto KY 155 from the approach roads at the KY 155/South Pope Lick Road intersection. The intersection is not signalized and traffic on KY 155 moves at 55 MPH (the posted speed limit) or higher Traffic back-ups at this intersection are common and sight distance is limited. The South Pope Lick intersection doubles a a signature entrance to the park on the south side of KY 155. A shared-use trail crosses under KY 155 at the South Pope Lick intersection.
